BRITISH GUIANA 1856 Facsimile

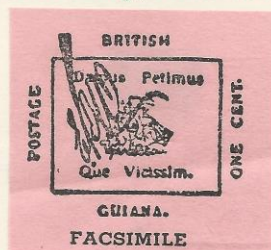

**World's Rarest Stamp**

The only stamp of this issue known to be in existence, transferred ownership during 1940 for the sum of \$50,000. Today it is valued at \$100,000.00!

An interesting fact about the original stamps is that they were initialed in pen and ink, as a cancellation, before being used.

In that only one collector throughout the entire world can possess this stamp, even if you have the cash, your chances of ever owning this stamp are practically nil.

We are extremely fortunate in being able to offer you a very fine facsimile of the World's Rarest Stamp, which will add more interest to your collection.
